

BR INTERNATIONAL FREQUENCY INFORMATION CIRCULAR (BR IFIC-Space Services)

Akim Falou Dine

Akim.Falou-Dine@itu.int

International Telecommunication Union

ITSO/ITU Workshop on Satellite Communications

AFRALTI, Nairobi, 17-21 July 2017

BR IFIC Introduction

The BR International Frequency Information Circular (BR IFIC) (Space services)

- Prior to 2000, *Special sections and PARTs*, were distributed in Weekly Information Circulars (**WIC**) - published on *paper*, *microfiche* and later on *floppy disk (diskette)*

BR IFIC Introduction

The BR International Frequency Information Circular (BR IFIC) (Space services)

- RES-30 (WRC-97) instructed the BR to initiate the introduction of a CD-ROM (*electronic*) format, the BR International Frequency Information Circular (BR IFIC) (Space services)
- As of **BR IFIC 2410/11.01.2000** new *electronic publication*, replaced the previous publication of the (WICs) on paper and microfiche.
- Due to the substantial increase of the volume of information the Bureau has changed the format of the BR IFIC (Space services) as of BR IFIC 2710/10.01.2012 from *CD-ROM to DVD-ROM* and as of BR IFIC 2833/22.11.2016 to a *DUAL Layer DVD-ROM*

BR IFIC Description - 1

- The BR IFIC (Space services) is a service document in DVD-ROM format, published *once every two weeks* by the Bureau in accordance with provision Nos. **20.2** to **20.6** and No. **20.15** of the Radio Regulations (RR)
- As from BR IFIC 2410 of 11 January 2010, the BR IFIC (Space services) represents the *sole publication format for Space services, for submissions under the relevant provisions and Resolutions of the Radio Regulations including Articles 9 and 11, and Appendices 30, 30A and 30B* of the RR
- The BR IFIC (Space services) represents an *official acknowledgement of receipt*, in terms of No. **11.28** of the RR (**PART I-S**), as far as the frequency assignments to the Space services are concerned, as well as a *statutory publication of the particulars of frequency assignments to the Space services* which are *recorded* in the **Master Register** pursuant to the relevant provisions of the RR (**PART II-S**), or returned to administrations as a result of unfavorable findings (**PART III-S**)

BR IFIC Description - 2

Following publications and data files are distributed **ONLY**
in the BR IFIC (Space services)

- PARTs and Special sections in PDF format
- SpaceCom draft data (*draft CR/D data per network (named IFICnnnn_BR_CRCxxxx.mdb) listing the administrations which have submitted a disagreement under No. 9.52*)
- Space Radiocommunication Stations (*SRS) reference database (SRSxxxx.mdb)*
- Graphical Interference Management System (*GIMS) data (GREFxxxx.mdb)*

BR IFIC Description - 3

Following publications and data files are distributed in the BR IFIC (Space services) and at the Bureau SSD website: <https://www.itu.int/ITU-R/go/space/en>

- **ificxxx.mdb** (*data of satellite network filings submitted under ART 9&11 and RES49 which are present in the Table Of Contents of the BR IFIC xxxx*)
 - **SPS_ALL_xxxx.mdb** (*data with examination results of satellite network filings submitted under AP30/30A which are present in the Table Of Contents of the BR IFIC xxxx*)
 - **30B_xxxx.mdb** (*data with examination results of satellite network filings submitted under AP30B which are present in the Table Of Contents of the BR IFIC xxxx*)
- The BR IFIC (Space services) is also used to distribute software developed by the Bureau for electronic notification and carrying out validation and technical examination, especially SpaceCap, SpaceVal, SpacePub, SIS (SpaceQry), SpaceCom, GIMS, Appendix 7, GIBC, SPS

BR IFIC Main Features

- All PARTs and Special section publications are in 6 languages of the Union (originally from 10.01.2000 in English, French, Spanish and as of 01.01.2005 also in Arabic, Chinese and Russian language)
- Starting with BR IFIC 2548/12.07.2005, all BR IFIC publications contains a mark - *ITU logo* at the bottom right of each page
this mark shall identify an official ITU publication

➤ **NOTE:**

The only official regulatory reference for coordination/ consultation between the administrations is ONLY *the corresponding PART or Special section contained in PDF format in the BR IFIC (Space services)*

IFICxxxx.mdb

The *IFICxxxx.mdb* file (MS Access format), published on the BR IFIC, is located in the Databases\IFIC_data directory.

- This file contains TSUM data of satellite networks or ES:
 - PART-IS, PART-IIS and PART-IIIS;
 - Special Sections:
 - API/A (as of IFIC 2464/05.03.2002) – *(as of IFIC 2796/09.06.2015 N-GSO only)*
 - CR/C (as of IFIC 2460/24.01.2002)
 - CR/F (as of 1.6.2012)
 - RES49 (as of IFIC 2553/20.09.2005)

only if present in the Table Of Contents of the BR IFIC

- IFICxxxx.mdb is *also* available on the BR website:

<https://www.itu.int/sns/demowic.html>

SRSxxxx.mdb Database

The *SRSxxxx.mdb* file is published ONLY on the BR IFICxxxx (Space services) DVD-ROM in: Databases\SRS Data directory

- This file contains complete alphanumeric information relating to satellite networks and Earth stations **recorded** in the Master International Frequency Register (**MIFR**) in accordance with *ART 11* or in the *process of coordination* (Sect II ART 9) or published under the advance publication of information procedure (**API**) not subject of coordination (Sub-Sect IA of ART 9) as well as Administrative Due Diligence (Resolution 49)
- *The information in the SRSxxxx.mdb is a snapshot of the MIFR taken at the time the BR IFICxxxx DVD-ROM was produced*
- The SRS database structure is described in detail in Section III, Chapter 1 of the *Preface*

GREFxxxx.mdb Database

Complete Graphical Interference Management System (GIMS) reference database (REFDB) - *GREFxxxx.mdb* data are published ONLY on the BR IFICxxxx (Space services) DVD-ROM in:
Databases\GIMS Data directory

- GIMS users can choose whether to leave REFDB on the master folder, i.e. the DVD-ROM, or to work with a local copy on their PC
- REFDB Automatic Update
 - *Every time GIMS needs to connect to a local REFDB copy it checks in the master folder to see if a newer version of REFDB is available.*
 - *If the master folder is not accessible, which can frequently happen when it is located on the BR IFIC DVD-ROM, the local copy is considered up to date. Otherwise GIMS compares the local and master copies to decide whether an update is required.*

Space Plan Data

Data for Planned Space Networks (Appendices 30, 30A & 30B)

- Technical characteristics and reference situation (EPM) for Planned networks can be found in the:
 - \Databases\AP30 30A\SPS ALL IFICxxxx (AP30&30A)
 - \Databases\AP30B\30B xxxx (AP30B)
- The MSPACEg output database for each network can be found in the \Databases\AP30 30A\TEX results\ directory. This database contains the detailed results of MSPACE calculation
- All Space Plan data are *also* distributed at the SSD website <https://www.itu.int/ITU-R/go/space-plans/en>

List of information "as received"

As of BR IFIC 2836/10.01.2017 – NO more "as received" on the BR IFIC....

RES-55 (rev. WRC-15) *instructs the Bureau 1*

to make available coordination requests and notifications, "as received", within 30 days of receipt on its website (SNL Part C)

<http://www.itu.int/ITU-R/space/snl/>

- **NOTE:** *This advance version of the information received from the Administrations is not to be confused with the official publication of the relevant PART or Special section, which is yet to occur.*

BR IFIC (Space Services) – BRsoft

- SAM - PC-based software package used to launch ITU-BR Space Software Applications;
 - SIS (SpaceQry), which can be used to query into the database and retrieve and view the alphanumeric data;
 - SpaceCap, which allows the capture and electronic notification of Appendix 4 notices;
 - SpacePub, an interactive tool to print satellite networks and earth stations;
 - SpaceVal, which can be used for validating electronic notices that are in the SNS electronic notice format;
 - SpaceRefdb, an update tool that will update the reference tables used by BR software;
 - SpaceCom, management of the comments on API/A (not subject of Coordination procedure), CR/C, AP30/E, AP30A/E, AP30-30A/F/C Special Sections;
 - SRSConvert, to convert the data contained in an existing SRS-formatted database from a version 5 database (WRC-03) into a version 6 database (WRC-07);
 - GIMS, allows the capture and modification of graphical data relating to the electronic notification of satellite networks;
 - IDWM, the ITU Digitized World Map;
 - SPS, determination of the coordination requirements for the Plans for space networks in AP 30, 30A and 30B;
 - SRSFixdb, to remove processing data and correct default information in electronic notification databases that are sent to the BR.
 - GIBC, which provides the user with the ability to carry out calculations on satellite networks relating to PFD examinations, Appendix 7 and 8 and Appendix 30B
 - EPFD, the equivalent power flux-density validation software
- **BRsoft is distributed ALSO** at the Bureau website: <https://www.itu.int/ITU-R/go/space-software/en>

Annual BR WIC and BR IFIC (Space services) Collection on DVD

- ALL reference Special Sections and PARTs related to Space services in PDF format
as of WIC 639/16.02.1965 (SAT 1 Special section)
- It contains PART I-S published *after year 2000*
- It contains all PART II-S and PART III-S published *after year 1993*
- It contains CR/C publication with the TSUM accessible by a link in the bookmark of the corresponding publication
- ITU Sales info - Publication notice

<https://www.itu.int/pub/R-SP-LN.IW-2013>

PROBLEM

with the BR IFIC (Space services) DVD-ROM?

- ADM receive the BR IFIC *damaged* (not readable)
- ADM receive the BR IFIC *late*
- ADM would like to read the BR IFIC in remote offices (*outside* of HQ)

➤ ***EASY !!! - download the BR IFIC in ISO format***

BRIFIC (Space Services) for *download* from the web – **ISO image**

- From 2014, BR offers *a secure web based distribution* of the *BR IFIC (Space services) in a compressed ISO image file format*
- <https://www.itu.int/pub/R-SP-LN.IS>   
- Provides access to the BR IFIC (Space services) publications and data after download, without any delay, *on the BR IFIC publication date* and offers *a secure* local reproduction of the BR IFIC (Space services) DVD-ROM
- ISO image will be the *exact copy* of the BR IFIC (Space services) on DVD-ROM
- a SHA-1 checksum file will also be posted to provide to all users an unambiguous verification that the downloaded BR IFIC (Space services)
- This is a *complementary service* to the current publication and distribution of the BR IFIC (Space services) on DVD-ROM

HOW to START the BR IFIC (Space services) DVD-ROM?

- ***EASY !!! - NO SETUP is required***

HOW to START the BR IFIC (Space services) DVD-ROM?

- NOTE : As of BR IFIC 2833/22.11.2016 - ***DUAL Layer DVD-ROM***
- If “***AutoPlay***” option is enabled in the computer, the BR IFIC (Space services) ***DVD-ROM will start it's menu automatically***
- ***If no - open the IFIC DVD-ROM with a file manager and click on Start32v4.exe***

What to do with the BR IFIC (Space services) DVD-ROM?

What to do on issue of a BR IFIC?

How to see details
on publications
when my
ADM is concerned?

- Is my ADM identified as affected by the Bureau's examination in a Special section publications?

- Are my ADM's networks published?

- Is my ADM's new submission published "As received"?

- Getting the new PARTs and Special sections and data published

BR IFIC (Space services) DVD-ROM

What to do with the BR IFIC DVD?

The screenshot shows the BR IFIC Publications interface. On the left, there are navigation menus for 'BR IFIC Publications', 'Databases', 'As received (Res.55)', 'Preface', 'Cost Recovery', 'BR Software', and 'BR Circular Letters'. In the center, there are 'Special Sections' including 'ALL', 'AP30-30A/F/D', 'AP30/E', 'AP30A/E', 'API/A', 'API/B', and 'CR/C'. On the right, there are 'Parts I-S, II-S, III-S' and 'Administrations' including 'ALL', 'IRN', and 'RUS'. Below these is a 'TABLE OF CONTENTS' table:

SPECIAL SECTION / PART	PLAN PART	RESPONSIBLE ADMINISTRATION		NAME OF THE SPACE STATION
		ADM.	INTERG. ORG.	
AP30/E/458	B	RUS	IK	INTERSPUTNIK-74.9E-B
AP30/E/600	A	IRN		IRANDBS3

The detailed entry for IRANDBS3 includes the following information:

Characteristics of frequency assignments published in application of Article 4 of Appendix 30 to the Radio Regulations

The present Special Section concerns proposed new or modified assignments in the Regions 1 and 3 in the frequency bands 11.7-12.5 GHz in Region 1 and/or 11.7-12.2 GHz in Region 3.

Elle comprend les Parties indiquées ci-dessous par une croix (X) dans la case appropriée.

[X] Partie A - Projets d'assignations nouvelles ou modifiées dans la Liste pour les Régions 1 et 3.

[] Partie B - Assignations nouvelles ou modifiées ajoutées à la Liste pour les Régions 1 et 3 en conséquence de l'application avec les dispositions de l'Article 4 de l'Appendice 30 ou réseaux de la Liste pour les Régions 1 et 3 optimisés ou fusionnés conformément à la Résolution 548.

Recommended actions:

For **NOTIF ADM** → checking TSUM, findings, exam results, BR Notes...

For **AFFECTED ADM** → is my ADM identified as affected?
→ is my territory in the Service area...

Access to the BR Space IFIC Database Archive

The folder, *Databases\IFIC_Archive*, found on this DVD, contains an archive of all IFIC $nnnn$ databases for the current year up to the IFIC number of this DVD-ROM. The database files are in a compressed (PKZip) format, and will appear in the form IFIC $nnnn$.zip, where $nnnn$ represents the number of the associated Space IFIC publication.

These files are accessible using MS-Windows Explorer (or your favorite file managing software), and can be decompressed by right-clicking on the file and selecting the preferred export option from the drop-down menu.

NOTE:

- 1 The **srs.mdb** file (MS Access format) published on the present BR IFICxxxx DVD-ROM is located in the *Databases\SRS_Data* directory. This file contains alphanumeric information relating to satellite networks and Earth stations recorded in the Master International Frequency Register (MIFR) or in the process of coordination, in accordance with Section III of Article 9 (Sections II (RR1060) and III (RR1107) of Article 11) of the Radio Regulations (the ITU Radio Regulations) and the procedure for information procedure in accordance with Section III of Article 9 (Section I (RR1042) of Article 11) and maintained by BR.
- 2 The information in the **srs.mdb** is a snapshot of the Mater International Frequency taken at the time the present BR IFICxxxx DVD-ROM was produced.
- 3 The SNS database structure is described in detail in Section III, Chapter 1 of the Preface.
- 4 In order to properly view and query the **srs.mdb** file directly from this DVD-ROM using either SpaceQry, SpaceCap or SpacePub you should first install them from the \BR_Soft\ folder also located on this DVD-ROM. The minimum software configuration: MS-Windows NT V4.0 or MS-Windows 95.

Published on DVD only

Data for Planned Space Networks (Appendices 30, 30A & 30B)

1. Data concerning the technical characteristics and reference situation for networks of the planned space services are currently included in the databases in the following directories:

- *\databases\SpacePlans\SPS*: The Space Plans Systems (SPS) database* contains data for assignments in the AP30/30A Plans, Lists and those of pending Article 2A & 4 networks and Resolution 49 information;
- *\databases\SpacePlans\AP30B*: The Appendix 30B database* contains data for the allotments in the Plan, assignments in the List and those of pending Article 6 networks and Resolution 49 information;

These two databases are considered as an extension of the SNS version 6.1 database. In order to properly view/print the content of these databases, SpaceCap (v6.5.2 or later), SpacePub (v6.0.4 or later) or SpaceQry (v6.2 or later) software is required.

2. The MSPACEg output database for each AP30/30A Article 4 Part A network published in this BR IFIC can be found in the *\databases\SpacePlans\MSPACEg_results* folder. This database contains the detailed MSPACE calculation results.

3. The GIBC output database for each Appendix 30B pending Article 6 network published in this BR IFIC can be found in the *\databases\SpacePlans\AP30B\GIBC_results* folder. This database contains the detailed GIBC calculation results.

Introduction

Published on DVD only

The Bureau now publishes the complete GIMS reference database (REFDB) on each IFIC DVD-ROM rendering obsolete the previous incremental update process.

Updated data for use by NOTIF ADM, AFFECTED ADM... etc.
