Meet the sectors

ITU - T

KEY ROLE

Crucial role in **defining operation and interoperability of technologies** that underpin global communications network

200 - 300 new global standards approved every year, with over **4,000** in use today

The background image is a photograph of a woman and a young child in a desert setting. The woman, in the upper half, wears a brown headscarf and a green shawl, looking down with a somber expression. The child, in the lower half, wears a colorful headband with many silver beads and a tiger-print shawl, looking directly at the camera. A semi-transparent green rectangle is overlaid on the image, containing the text 'ITU-D /DEVELOPMENT/'.

ITU-D

/DEVELOPMENT/

ITU at a glance

Meet the sectors

ITU - D

KEY ROLES

Spread equitable and affordable **access to telecommunications** to help stimulate social and economic development

Human capacity-building particularly in developing and least developed countries (LDCs)

Helps to ensure that people everywhere are empowered **to reap the benefits that connectivity delivers**

ITU-R /RADIOCOMMUNICATIONS/

ITU at a glance

Meet the sectors

ITU - R

KEY Mission

to ensure rational, equitable, efficient and economical use of the radio-frequency spectrum

- effect allocation & allotment and the registration of radio frequency & GSO orbital position
- coordinate efforts to eliminate harmful interference

150 1865
ITU 2015

ITU-R history in brief

1906 (Berlin)	International Radiotelegraph Convention (1 st <i>Radio Regulations</i>)
1927 (Washington DC)	CCIR (International Radio Consultative Committee)
1932 (Madrid)	Telegraph & Radiotelegraph Conventions merged: the International Telegraph Union became the International Telecommunication Union
1947 (Atlantic City)	IFRB (International Frequency Registration Board) ITU as UN specialized agency
1992 (Geneva)	ITU-R (Radiocommunication Sector): <ul style="list-style-type: none">▪ RRB (Radio Regulations Board)▪ BR (Radiocommunication Bureau)

110+ years of ITU Radio Regulations

Roles of ITU-R

**international
regulations**

**global
standards
& guidelines**

**assistance to
administrations**

- ✓ Rights of access to the spectrum
- ✓ Efficient use of spectrum
- ✓ Operation free from interference
- ✓ Economies of scale
- ✓ Interoperability and roaming
- ✓ Global harmonization
- ✓ Guidelines for national & regional regulations

**GOOD QUALITY
AND LESS COSTLY EQUIPMENT**

**MORE FAVORABLE INVESTMENT
ENVIRONMENT (CLEAR & STABLE)**

ITU-R mission

- To ensure **interference-free operations** of radiocommunication systems by implementing the Radio Regulations and regional agreements, as well as updating these instruments in an efficient and timely manner through the processes of world and regional radiocommunication conferences.
- To establish **Recommendations** intended to assure the necessary performance and quality in operating radiocommunication systems.
- To seek ways and means to ensure the **rational, equitable, efficient and economical use of the radio-frequency spectrum and satellite-orbit** resources and to promote flexibility for future expansion and new technological developments.

Role conducted through *(inter alia):*

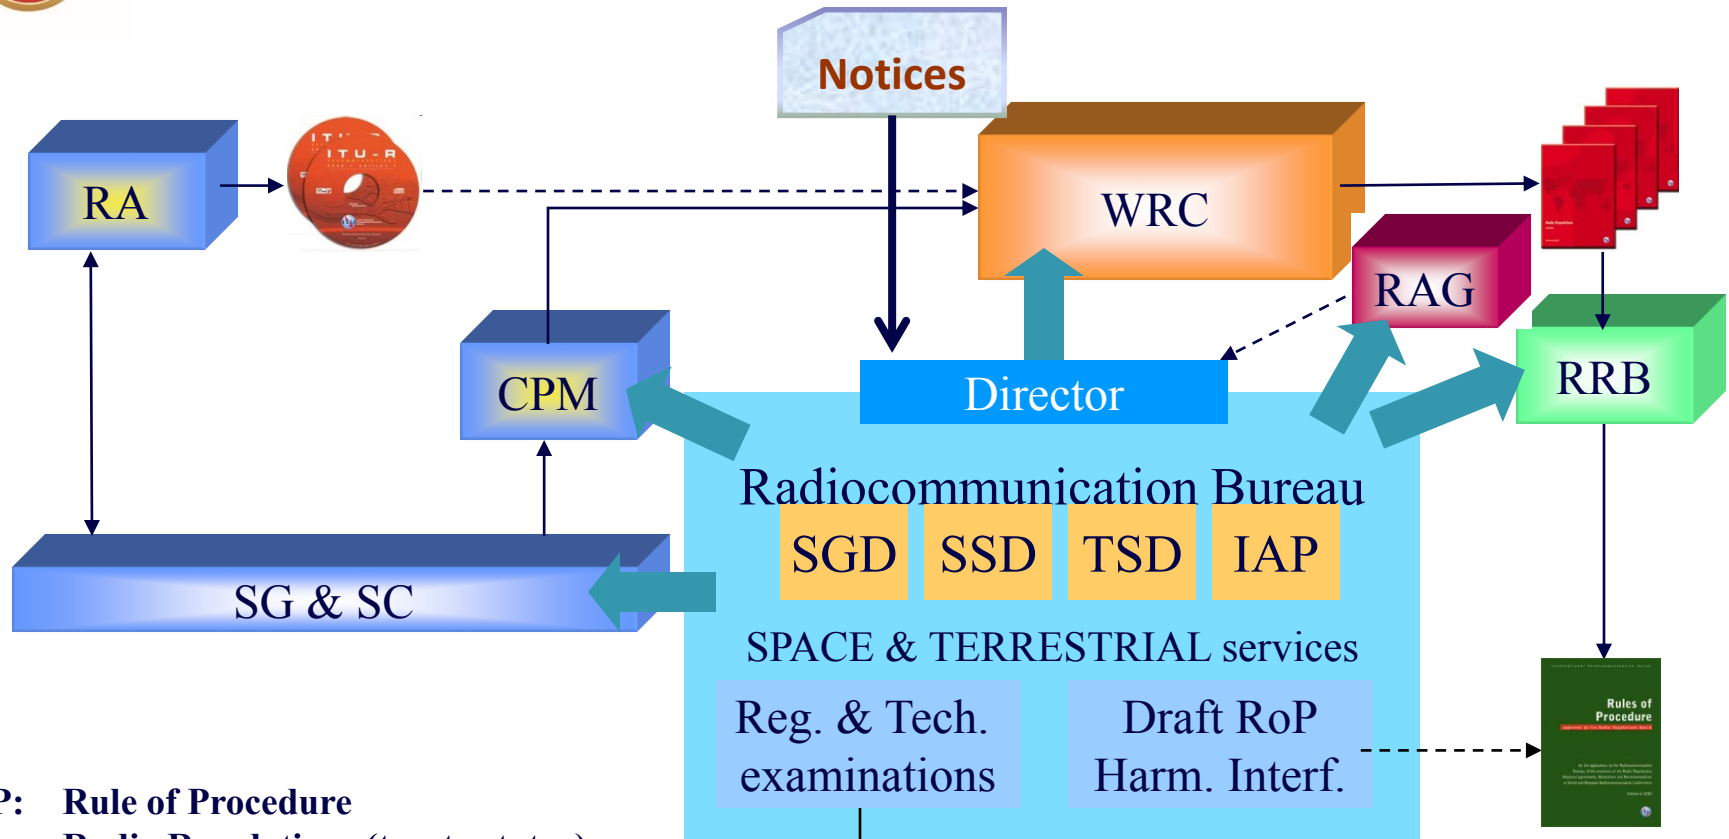

- ✓ World and Regional Radio-communication Conferences
- ✓ Radiocommunication Study Groups
- ✓ Radio Regulations Board
- ✓ Radiocommunication Bureau

In implementing this mission, the actions in ITU-R aim at creating the conditions for harmonized development and efficient operation of existing and new radiocommunication systems, taking due account of all parties concerned.

ITU-R structure & activities

RoP: Rule of Procedure
RR: Radio Regulations (treaty status)
RRB: Radio Regulations Board
SG: Study Group
WRC: World Radiocommunication Conference
CPM: Conference Preparatory Meeting
MIFR: Master International Frequency Register
RA: Radiocommunication Assembly
RAG: Radiocommunication Advisory Group
Rec: Recommendations (international voluntary standards)
IFIC: International Frequency Information Circular

BR IFIC

Radio Regulations (RR)

The Radio Regulations (international *treaty*) incorporates the decisions of the World Radiocommunication Conferences, including all Appendices, Resolutions, Recommendations and ITU-R Recommendations incorporated by reference.

- Frequency block **allocations** to defined radio services (Article 5)
- Mandatory or voluntary **regulatory procedures** (coordination, plan modification, notification, recording) that are adapted to the allocation structure

Space Services

- ✓ *Coordination and recording* procedures for space systems and earth stations: capture, processing and publication of data and examination of frequency assignment notices submitted by administrations for inclusion in the formal coordination procedures or recording in the Master International Frequency Register (MIFR).
- ✓ Procedures for space related assignment and allotment *plans*
- ✓ *Assistance* to administrations on all of the above issues

- ✓ **Regulatory and Technical Functions**
 - Broadcasting / Fixed and Mobile / Maritime Mobile / Aeronautical Mobile
- ✓ **Terrestrial Plans**
 - AP25, AP26, AP27, ST61, GE75, RJ81, GE84, GE85M, GE85N, RJ88, GE89, GE06
- ✓ **HF Broadcasting (Art.12)**
- ✓ **Administrative and Operational Procedures**
 - International means of identification
 - call sign series / maritime identification digits / blocks of selective call sign numbers
 - Service Documents
 - Ship stations / coast stations / radio determination / call signs / MARS, etc
- ✓ **Harmful interference & monitoring programs**

ITU-R Study Groups

SG 1: Spectrum management
SG 3: Radiowave propagation
SG 4: Satellite services
SG 5: Terrestrial services
SG 6: Broadcasting service
SG 7: Science services

- ✓ >900 Recommendations
- ✓ “Standards” in areas of spectrum management and radio technology
- ✓ Result of consensus from meetings of world-wide experts
- ✓ Some referred to in RR
- ✓ Used by spectrum planners and system designers
